CALL FOR EXPRESSION OF INTEREST

Appendix 1: Call for Expression of Interest

Market-Oriented Internship for Youth Aquaculture Graduates under NORAD Grant

The International Fund for Agricultural Development (IFAD) is implementing the NORAD-Grant Project titled “Advancing Resilient and Nutrition-sensitive Smallholder Aquaculture (ARNSA)”. The additional financing aims to complement ongoing activities of the Agriculture and Fisheries Development Programme (AFDP) in the United Republic of Tanzania. The overall goal of ARNSA is “reduced rural poverty and improved nutrition through sustainable smallholder aquaculture”.

The internship program aims to develop the next generation of aquaculture industry leaders, well trained technically and with adequate business skills. The interns are required to undertake research to address a particular practical challenge in the project area to enhance aquaculture productivity and contribute to the overall project goal. It is an opportunity for young aquaculture graduates to develop necessary appropriate technical and entrepreneurship skills in aquaculture as well as exposure to hands-on field experience. It is envisioned that this will inspire and enable youth to start their own aquaculture enterprises. This will also provide the project with specific results that can be used to enhance aquaculture productivity and contribute to the overall project goal.

Therefore, AFDP is looking for 18 young aquaculture graduates with a passion for aquaculture to undergo a structured 6-month internship programme to gain work-place experience, refine their career aspirations, build professional networks, and enhance self-reliance in the aquaculture sector.

Eligibility Criteria

- (a) Applicant be a Tanzanian citizen.
- (b) Aged between 18 and 35 years.
- (c) Be a young finalist or recent graduate with a bachelor's degree or diploma certificate in Aquaculture and/or Fisheries or related fields.
- (d) Practical experience in aquaculture seed and feed production, farm management, post-harvest handling, value addition and processing including that of seaweed.

- (e) Submit a concept note to assess their level of interest to pursue a career in aquaculture (not less than 1000 Words Single Space).
- (f) Preferably be a resident living in the project intervention areas of Lindi and Ruvuma regions.

Young women and persons with disabilities are highly encouraged to apply.

Application Procedure:

All applications MUST be completed and submitted online through **afdp@pmo.go.tz** OR through Prime Minister's Office Postal Address;

Permanent Secretary
Prime Minister's Office,
Policy, Parliament and Coordination
